Professional Summary

Motivated MCA graduate with hands-on internship experience in Core Java, Object-Oriented Programming, HTML, CSS, JavaScript and SQL. Strong understanding of programming fundamentals, web application development, database connectivity and problem-solving. Developed academic projects involving web-based application development and AI-based dynamic pricing and inventory optimization. Seeking a Software developer role to apply technical skills, contribute to development projects, and grow as a software professional.

Technical Skills

Programming: C, Python, Java, JavaScript, PHP.

Web Technologies: HTML, CSS, Servlet, JSP.

Database: MYSQL.

Projects

AI- Based Dynamic Pricing System with Micro Markdown Engine and Inventory Optimization Tool 10/2026 – 01/2026

Smart Retail Pricing and Inventory Management Using AI and Real-Time analytics.

This project presents an AI-Based Dynamic Pricing System Integrated with a Micro-Markdown Engine and Inventory Optimization Tool. The system is designed to automate pricing decisions and inventory management for retail and e-commerce platforms.

Child Orphanage Management System 04/2024 – 06/2024

Web-Based System for managing orphanage records and activities.

The Child Orphanage Management System is a web-based application designed to efficiently manage the records and operations of an orphanage. The system helps administrators maintain detailed information about children, staff, donations and daily activities on centralized platforms.

Awards & Certifications

Power BI for Beginners, Simplilearn (SkillUp) in collaboration with Microsoft 2026

Academic Qualifications

Qualification	Institution	University/Board	Score	year
MCA	JNNCE, Shivamogga	Visvesvaraya Technological University	CGPA: 8.7	2026
BCA	GFFC, Thirthahalli	Kuvempu University	CGPA: 8.4	2024
2 nd PUC	Govt PU College, Thirthahalli	Department of Pre-University Education	78%	2021
SSLC	Govt Junior College Thirthahalli	Karnataka Secondary Education Board	78%	2019

Internships

Software Intern, X-workz, Rajajinagar, Bengaluru 02/2026 – 06/2026

- Implemented Core Java OOP concepts (inheritance, polymorphism, encapsulation) in structured assignments.
- Developed responsive UI components using HTML, CSS, and JavaScript with DOM Manipulation.
- Performed CRUD operations and complex queries using SQL And MySQL for backend data management.
- Managed source code and collaborated using Git and GitHub for version control.
- Built a full-stack Suzuki Showroom Management System using Java, MySQL and JavaScript.
